## Clos del Rey Côte du Roussillon

### The Domaine at-a-glance

**Owner:** Jacques & Julien Montagne  
**Winemaker:** Julien Montagne **Year Est:** 2001  
**Soil:** Schist, with some Clay-Limestone soils  
**Size:** 34Ha **Location:** Maury, Roussillon  
**Appellations Produced:** Côte du Roussillon

Established in 2001 by Jacques Montagné, Clos del Rey is located in the heart of the appellation of Maury. Although Maury is best known for its sweet, port-like, wines, Clos del Rey only produces dry red wines. Clos del Rey boasts some stunningly beautiful vineyards. Located in a natural protected area of garrigue (a scrub brush of rosemary, bay laurel, and pines) at 300 meters in altitude, they are the highest vineyard site in Maury. The vineyards are on a stony combination of limestone soil, ferric tailings, with areas of schist. The oldest vines in the Clos del Rey vineyard are an amazing 138 years old. A few years ago Julien Montagne joined his father at the winery. Though Julien still works for a fine-wine

Julien Montagne  
in the "Clos del Rey" vineyard

distributor in the area, he is also in charge of the winemaking at Clos del Rey. His father Jacques does most of the work in the vineyards. Together, with their combined hard work and experience, they make

some of the finest wines in the region. Even though they have extensive vineyard holdings in Maury, they only keep 6 hectares of vines for their personal production. The rest of the grapes are sold off in bulk. If they chose to, they could make much more wine than they currently produce. However, years ago they made the decision that, rather than producing large quantities of wine, they would focus on producing small amounts of high quality wine. After having tasted many bottles, and after many visits to their winery, it is clear to me that that gamble has paid off wonderfully.

*"Jacques Montagné ... has a good line in self-deprecation. Just after reeling off the names of his importers in the US, Japan and Canada he answered my next question with 'business card? Me? I'm just an amateur'."*

- Jansis Robinson

### Clos del Rey - "L'Aragone" 2013 - 100% Carignan

### Wine Advocate (92-94) pts

**Technical Notes:** All the grapes are hand harvested and brought to the winery in small bins, where they are meticulously sorted for quality. The wine undergoes fermentation using indigenous yeasts, and a very gentle extraction, with 2 punch downs per day during the alcoholic fermentation. The maceration ranges from 25 to 35 days, in temperature controlled tanks. Then 40% of the volume is put into new barrels of French oak, while 60% remains in tank. The wine is aged for 14 to 18 months (depending on the vintage) before bottling. The yields are extremely low at 12 to 17 hl per hectare.

**Tasting Notes:** Though Clos del Rey has some of the most amazing Carignan vineyards I have seen, The never produced a pure Carignan. In 2012 they decided to produce "L'Aragone", which is the winery's first pure Carignan. The rocky, isolated, mountaintop vineyard that produces this wine is over 300 meters in altitude. This is the highest vineyard in Maury, and its oldest Carignan vines are in excess of 130 years old. This is an inky and complex Carignan. Intense blackberry and black raspberry fruit flavors in the mouth, mingle with exotic sandalwood, and black pepper spice in the nose. This wine delights almost all of the senses, with its beautiful color, complex aromas, intense flavors, and incredible mouth feel.

**Only 208 cases produced**
